EXIMTRAC

ABOUT US

In-depth knowledge in the field of exports and an inner urge to excel in whatever we do, were the building blocks with the help of which Mr. Pradip Mehta laid the foundation of M/s. EXIMTRAC in the year 1997.

We are located in the heart of the ever bustling city of Mumbai, doing exports of products sourced from the length and breadth of the Indian sub-continent to provide for the growing demands of quality Indian products.

At EximTrac, once a job is given, consider it done. Our confidence stems from the fact that we provide personalized attention to all our shipments & consignments. All our customers become our family and therefore their concerns become our primary tasks. The second generation leadership even recall stories of how their father often brought customers home and introduced them as friends and relatives and not as clients. It is this affection and friendship with all our clients that puts their faith in us. It also inspires us to ensure seamless trade and tension free environment for them; by way of providing them with excellent service even if it requires to go that extra mile.

Over the years we have continuously customized and expanded our export product portfolio as per the needs of our customers. They have asked and we have supplied. The tradition continues even today as we constantly strive to attend to all our customers' import needs.
